

Unleashing **AI-powered** imaging for everything and everyone.

Orbem is an impact-driven deep tech startup from Munich, Germany. We develop fast, accurate, and accessible imaging solutions that provide access to otherwise unattainable sources of knowledge.

In everything we do, we seek to make a difference – and develop solutions to sustainably feed the world, improve human health, and maximize human potential. **Join us.**

People & Operations Intern/Working Student

Starting date: flexible

Placement: Intern - €1,500/month

Send application to:

kai.riemenschneider@orbem.ai

Your role

You build a smart and diverse team with us. You identify great candidates, convince them to join Orbem and create an environment that makes them stay. You work directly with the founders and team leads to fill key roles along our growth journey. By combining a data-driven mindset with innovative approaches, you build the processes and culture that allows our team and every member to flourish and grow.

Your experiences and skills

We hope to hear from you if any of these apply:

- You have **worked in a fast-paced environment**, e.g. as part of a study project.
- You know how to **lead and structure conversations**, e.g. through interview or user research experiences.
- You have **implemented a strategy based on data**, e.g. in managing your personal expenses or in a team you have been part of.
- You **identify yourself with one or more of these attributes**: member of an underrepresented group, non-linear career path, otherwise unique profile.

We look for this in all our team members:

- You **are a changemaker**: you are passionate and purpose-driven.
- You **are a teamplayer**: you seek to connect with and build upon the skills and knowledge of others to achieve the best possible outcome for everyone.
- You **are a builder**: you turn big dreams into reality.
- You **identify yourself with our core values**:
 - *We own every challenge*: we enjoy complexity and thrive under uncertainty.
 - *We strive for better*: we are driven by dissatisfaction with the status quo and seize any opportunity for growth. We are constantly learning and improving.
 - *We imagine new frontiers*: we think beyond 'doable' and 'reasonable'. We design a sustainable and healthy future together.

What we offer

You join an ambitious team working on breakthrough technology. We offer you a plain playing field to explore and design. During your time with Orbem, we support you in discovering your strengths and defining a vision for your professional future. We hope to teach you some things, but more importantly we also want to learn from you. **Join us.**
