

## WORKING STUDENT:

## HR TALENT MANAGEMENT – DIGITAL LEARNING

### COMPANY DESCRIPTION

Founded in Munich, Germany in 1989, Brainlab develops, manufactures and markets software-driven medical technology, enabling access to improved, more efficient, less-invasive patient treatments. Our key to success is our creative, talented and hard-working team, which consists of around 2000 dedicated and inspiring individuals in 25 locations worldwide. To succeed in reaching our targets, we are seeking committed colleagues who can stand behind our core values curious, authentic and useful:

### WHAT TO EXPECT

As our working student for Digital Learning in the HR Talent Management team, you will get to know two interesting areas: work with our Learning Management System “Learning Lab” and join in Talent Management projects to shape the learning experience for our colleagues at Brainlab.

It will be a mixture between creating Learning & Development concepts, the technical implementation in the system and getting to know the daily running of a Digital Learning department. Flexible home office work is permitted.

Your tasks will include:

- Maintain the Learning Management System “Learning Lab”
- Conceptualize new digital learning projects (e.g. creating Learning Journeys for our Personal Development trainings; improve Onboarding workflows)
- Join in digitalization project to consistently improve processes, the user experience of the platform and automated enrollments
- Support our Brainlab Leadership Program
- Support in the daily running of training organization, hospital visits, language courses

### WHAT YOU OFFER

- Currently enrolled student of Psychology, STEM, Economics or other technical or education related program
- Fluent written and spoken English communication skills, German a plus
- High affinity for digital systems/platforms
- Ideally available for 6+ months

## ADDITIONAL INFORMATION

- Working at the headquarters of an exciting international high-tech company
- Weekly student lunches and monthly After Work Events
- An award-winning company restaurant
- An in-house, state-of-the-art 360m<sup>2</sup> fitness studio

Interested? Then we look forward to receiving your online application!
