

Help us to revolutionize the digital health market in the field of psychotherapy! We are developing an innovative virtual reality software, which can be used to treat various psychological and at a later stage, neurological disorders. The product is developed and scientifically validated in close cooperation with renowned clinics. Our team is interdisciplinary, was awarded by the BMWi in 2018 and receives strong support from the founding scene and scientific institutions.

Key responsibilities

- Choose your focus: Business Development, Finance, Marketing, Sales, ...
- Shape the strategic direction of the company
- Build and take care of relationships with our cooperation partners and clinics
- Take part in interesting conferences, meetups, and other events
- Participate in the development of recruiting strategies
- Investigate the future of psychotherapy
- Find new ways to enable scalable growth
- Prove the case with numbers
- Support in marketing and public relations

Skills and Knowledge

- You are self-reliant and responsible
- You are passionate about economical or psychological topics
- You have solid business knowledge and experience in creating business plans and calculating case studies (Excel)
- You are curious and interested in learning something new
